Last year our Topics of Discussion provided a bit of an overview of members rights and entitlements, this year we hope to expand on some of those conversations and address some very specific areas of interest:

- Health and Safety – Who does what and when? (resource package included)
- Job Evaluation / Job Description – What is this and where are we at?
- Professional Development & Collaboration – What can we expect to see?
- Roles & Responsibilities – Who does what?
- Learning Improvement Fund – What is this and how are the monies accessed?

We welcome your input in advance and therefor if you have any burning questions or pressing issues that you would like an immediate answer for please do not hesitate to submit an email to unionoffice@cupe411.ca.
