

Q1 As part of the Provincial Support Staff Framework Agreement, the parties agreed to establish a Joint Health and Safety Taskforce for the purpose of ensuring healthy and safe working environments, and adherence to WorkSafe BC regulations in all K-12 sites across the province. As part of this work, the Provincial Framework Agreement directed the Taskforce to conduct a joint health and safety committee evaluation tool. You are being asked to participate in this evaluation because you are either a support staff (worker) member of a K-12 site Joint Health and Safety Committee, a management representative of a K-12 site Joint Health and Safety Committee, or a health and safety representative for a K-12 site that does not require a committee. This evaluation will inform the work of the Taskforce, particularly with respect to assessing how well Joint Health and Safety Committees are functioning at K-12 worksites across the province. Information gathered from all of the responses to this province-wide evaluation may be used in other ways that further the development of health and safety protocols in the K-12 sector, such as in the development of policy, and in discussions between local unions, school districts, and the provincial government. The results of this evaluation will be shared with union locals, the BC Provincial School Employers' Association (BCPSEA) and local employers, so that they can work collaboratively to support local districts and unions in complying with all WorkSafeBC requirements. As such, this survey is NOT anonymous and the information you share may become known by your immediate supervisor(s). Please note that the Workers Compensation Act protects employees from prohibited action taken by an employer in response to information an employee provides regarding conditions affecting the occupational health or safety, or occupational environment, of that worker, or any other worker, to an employer or person acting on behalf of an employer (see worksafebc.com). If this is a concern for you, you may wish to contact your union if you are a support staff worker, or your school district contact responsible for occupational safety if you are conducting this evaluation as a management-representative on the committee.

Participation in this evaluation is voluntary. You are not required to participate in this evaluation, but once you begin this survey, it will not be possible to withdraw your responses. It is estimated that this survey will take 30 to 60 minutes to

complete.

Your assistance in providing this information to the Joint Health & Safety Taskforce is greatly appreciated. You must indicate that you have read and understood the information provided here in order to participate in the evaluation. I have read and understand the information provided here and:

1142	Currently we are dealing with the pandemic and a risk that is brought up over and over is that we are exposed to student's bubbles as they are not wearing masks within their cohorts. Our masks are only protecting us at a small degree (our last layer of protection) as students usually cannot keep a 6 ft distance. If students were required to mask up in their cohorts it would make staff feel a little more at ease. We also now know about the risk of aerosol transmission as brought up by Dr. Tam so that is a worry even if we can keep our 6 ft distance with over 180 people in our building. Also, our air exchange system was deemed for replacement years ago, but has not yet been replaced. In past years we have had teachers and SEA's report numerous "reports of violence from students". Sometimes it is the same student over and over. Mental health would also be an issue due to the emotional toll this job takes when dealing with students/children with extra needs or adverse home life.	1/27/2021 11:36 AM

68	Done in a timely manner. Discussed with employees.	2/18/2021 10:13 AM
69	I am not sure that we have both an administrative and a worker representative involved in every incident investigation - administration does follow through with the investigations, just not sure if there is someone on the workers side involved each time. Having equal representation would make things more transparent and allow the staff to feel as if they are being heard and can communicate openly and honestly. Sometimes fear of judgement or reprisal can limit an individuals comfort level.	2/18/2021 10:12 AM
70	Incident investigations are conducted immediately and issues rectified ASAP.	2/18/2021 10:03 AM

Responsibilities, roles and functions		
112	The incident investigation process/reporting is controlled by the injured worker's manager and worker reps are sometimes relegated to 'signing off' on an already complete investigation. The system could be better setup to require more initial involvement of the worker rep and to make that requirement better known to the manager conducting the investigation. Incidents are reported to the committee once only. Corrective action details are not always complete. Additional followup could be provided to (or be requested by) the committee.	2/17/2021 10:52 AM

144	More discussion at monthly meetings	2/16/2021 2:13 PM
145	Our committee is very effective in investigations. The time line is very tight....48 hours....so that impedes who can be involved in the investigation, as it has to be done so quickly.	2/16/2021 2:08 PM
146	Our committee works collaboratively with staff members during incident investigations.	2/16/2021 1:56 PM
147	Further training needed in this area.	2/16/2021 1:46 PM
148	We have only had 2 full investigations in the 2+ years I have been here. I had a cute member help with the process. That person has left and the replacement has not been trained yet.	2/16/2021 1:33 PM
149	- formal training for accident investigation - no knowledge of near miss identification, communication and investigation.	2/16/2021 1:08 PM
150	The reports are not always shared immediately- it depends upon when the next monthly Health and Safety Committee meeting is scheduled	2/16/2021 1:06 PM
151	Our committee is very effective with incident investigation. A suggestion might be just to meet earlier in the morning for an incident investigation.	2/16/2021 1:06 PM
152	We have not had to complete any investigations this school year, if needed we could though.	2/16/2021 12:48 PM

766	In a small school when investigations and paperwork is needed in a timely way, there is no time in a day where the employer and employee rep can meet and still teach. the employer generally has a discussion with the employee rep and fills in paperwork. Incidents are reviewed at meetings and further recommendations will be made and acted upon. If this needs to change, then we would need additional structures/HR resources to make this happen as members are volunteering their time to serve on this committee.	1/26/2021 4:28 PM
767	There have been very few incidents this year. Biggest issue is timeliness of investigations.	1/26/2021 4:19 PM
